

PureCare 780

270° Intake Air Filtration System

SPECIFICATIONS

Features	
More air volume	✓
Higher energy efficiency	✓
Low noise	✓
Improves user experience	✓
Easy to use	✓
Lighter weight	✓
More refined appearance	✓
Easy to install and disassemble	✓
2 Speed options	✓
1-9 Hours timer	✓
4 Types of suspension	✓

Parameter Information	
Operating voltage	115 V
Power	62 W
Noise decibels	50 dB
Fan air volume	580 CFM - 780 CFM
Product net weight	20 lbs
Package size	18.35 X 18.35 X 8.82 in
Filter specifications	MERV-11

PRODUCT APPLICATION

The PureCare 780 2-speed Air Filtration system is an air purification device designed for home and commercial environments. Its unique 270° intake design and powerful vortex fans ensure efficient air circulation and purification. The high-density MERV-11 filter captures small particles in the air, providing users with a fresh and healthy air environment.

In addition, the device is also equipped with a convenient infrared remote control and intelligent timer function. Users can easily adjust the equipment operating parameters and set the running time according to their actual needs. The PureCare 780 2-speed air filtration system delivers outstanding performance and a convenient operating experience, whether for daily use at home or air purification needs in a commercial location.

In short, the PureCare 780 2-speed air filtration system is a trusted air purification solution with its advanced airflow design, efficient filtration performance, convenient infrared remote control, and intelligent timer function.
