cETL	✓
SLGR Technology	✓
Two Wheels	✓
Built-In Pump	✓
Low Noise Level	✓

Specifications	Storm 80X
Operating Voltage / Current	115 V 5.3 A
Max. at Saturation (90°F, 90% RH)	170 Pints
AHAM, (80°F, 60% RH)	80 Pints
Size For	2100 Sq. Ft
Airflow	200 CFM, 340 CMH
Filter	MERV-1
Filter Size	13.2 × 11.2 × 0.4 in
Unit Dimensions	15.2 × 14.4 × 24.8 in
Shipping Dimensions	26.3 × 17.1 × 16.3 in
Power Cord	16.4 ft
Unit Weight	63.9 lbs
Shipping Weight	71.6 lbs
Drain Height	19.6 ft
Temperature Range	35.6 - 102.2 °F
Sound Pressure Level	60 dBA

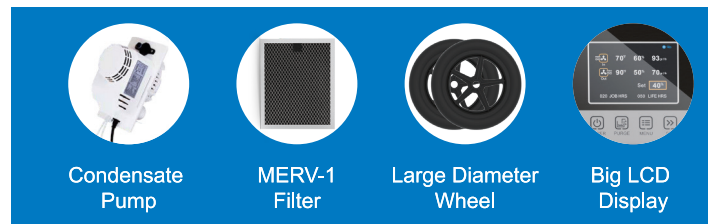

Application

This commercial dehumidifier with high airflow of 200 CFM to maximize the drying performance, is capable of removing up to 170 pints of water from the air per day at saturation (90°F, 90%) and 80 PPD @ AHAM, a top choice for the drying and water damage restoration industry in large space up to 2,100 square feet. Also, dehumidifier comes with a compact design, the dimensions at just 15.2×14.4×24.8 inches (L×W×H), the space-saving design with 2 large wheels and retractable handle of the housing makes it easy to position in small confined areas, great water damage restore, tight basements, and other hard-to-reach areas. Plus, the 19.6 ft long drain hose and 19.6 ft drain vertical height maximize the flexibility of installation, you can drain anywhere easily with the condensate pump. All you need to do is plug it in, turn it on, set the humidity. The AUTO ON / OFF and Memory Starting adds convenience. The auto-restart on power failure and Auto defrost features allow less supervision. See the GPP number on the display board at a glance. Kindly Note: During the defrost cycle, you may notice a decrease in moisture removal until the coils are fully clear and the unit can return to its regular operation.

Key Design Features

- MERV-1
- Automatic Defrost
- Retractable Handrail
- Built-In Pump
- Two Wheels
- SLGR Technology
- Small Size
- Digital Control
- Quick Access for Easy Maintenance
- Epoxy Powder Coating for Corrosion Protection
- High Capacity with Low Power Consumption

High Capacity. Compact. Low-temperature Dehumidifiers For Professional Water Damage And Carpet Specialists.

Why Dehumidify?

- Can effectively prevent household items, food, medicine, and books get moldy.
- Can effectively protect household appliances, computers, cameras and other instruments from moisture damage.
- It can effectively prevent the long-term humidity of the crawl space or basement from generating moisture in the wood of the house structure to cause rot and damage.
- Can effectively let the house stay away from pest infestation
- Can effectively avoid excessive humidity in a space where it's easy for mold, mildew, and fungus to thrive.

Smart Control panel & Auto Error Detection

Storm 80X Commercial Dehumidifier with a large digital display control panel offers a convenient and accurate humidity level readout, you can easily turn it ON / OFF drain, and set humidity levels with this panel. It'll also display the error code once the dehumidifier detected issue, once you see the error code on the screen, please search the user manual for solutions or contact us directly.

Proven Performance

The **Storm 80X** combines proven design with **professional performance** and **portability**. The roto-molded polyethylene housing is dent resistant which offers superior durability. **A rigid handle** and **semi-pneumatic wheels** ensure **easy transport and maneuverability**.

The **Storm 80X** dehumidifier removes up to **80 pints** of water per day while with the current draw 5.3 amps - enough water removal for areas up to **2100 sq.ft.**

The **80X** has features like Duct Connection Choice at the outlet, Quick Access for Pump Service, Water Full Protection and MERV-1 Filter. Compared with competitors, the **Storm 80X** has a **unique design like simplified user controls include a large LCD display**. The pump has its Quick Connector, so it can be taken out freely by pulling out the quick connector.

Whether it is a flash flood, heavy rain, or water main break, we have the equipment to handle the most severe environments and assist with restoration.
