

Air Mover

Features

- High air volume, low noise
- Lightweight design
- High efficiency and energy saving
- Easy maintenance
- Controlador: automatic control

Parameter Information

Maximum Airflow:	2000 CFM
Sound Pressure:	67 dB
Product Weight:	24.29 lbs
Product Dimensions:	16.06 × 14.02 × 17.24 in
Operating Voltag:	110V-120V,60Hz 224W
Power Cord:	20 ft
Temperature Range:	23-160 °F
Functioning Humidity Range:	≤98%

PRODUCT APPLICATION

The AlorAir GE2000HCW Air Mover is a professional-grade device that combines efficiency, versatility, and portability. Its advanced centrifugal design with three adjustable rotating airflow options ensures rapid drying of surfaces such as carpets, floors, furniture, Windows, and walls. The airflow rate of up to 2000 CFM (cubic feet per minute) makes it particularly suitable for drying large surfaces and narrow Spaces.

This air mover is not only versatile but also extremely flexible. With 3 speed settings 4 operating angles (0°, 90°, +10°, -10°), and a built-in 3-hour timer, it is not only perfect for air drying, but also effectively improves indoor ventilation and air circulation. The built-in handle and wheel kit make moving effortless, while the digital control panel provides a precise control experience. The specially designed carpet clamp can firmly fix the carpet and achieve fast drying.

Designed for commercial and industrial environments, the AlorAir GE2000HCW air Mover is equipped with a 20-foot power cord and timer for easy use. Its durable PP housing ensures reliability in large-scale drying, cleaning, and restoration projects. In combination with Alorair's air purifiers and dehumidifiers, a comprehensive water damage repair system is available. Compact design, small space, easy to store and transport. Built-in timer for up to three hours of automatic running time.

The timer function is convenient for users to control the running time of the fan and save energy. Through the smartphone APP, users can remotely control the fan's start, stop, and adjust the wind speed and other functions. The APP interface is simple and clear, the operation is convenient, and the real-time fan status monitoring and fault alarm function are provided. The fan is made of high-quality materials and exquisite production technology and has the characteristics of corrosion resistance and wear resistance. In line with relevant safety standards, with overload protection, short circuit protection, and other safety functions, to ensure the safety of users in the process of use.

In addition, the device is excellently portable. Plug in and get started, and the stacked design and portable handles make it easy to store and transport, whether traveling to the job site or moving from room to room. For contractors, restoration specialists, or anyone who needs a portable solution, this device offers unmatched portability and convenience.

KEY DESIGN FEATURES

- 18H timer
- 3-Speed adjustable airflow
- Handle Caster Kit
- 20 ft Power Cord
- Carpet Buckle
- Stackable

WHEEL PULLER

CARRYING HANDLE

CARRYING HAND AND CORD WRAP
20 ft. long power cord

DIGITAL PANEL SPEED SWITCH
3 high-velocity speeds
ADJUSTABLE TIMER
Maximum setting of 18 hours
